

Benjamin Vakoc, PhD

Assistant Professor at Harvard Medical School and Harvard-MIT Health Sciences and Technology;  
Wellman Center for Photomedicine, Massachusetts General Hospital

Benjamin Vakoc joined the Wellman Center for Photomedicine at the Massachusetts General Hospital following his PhD work at Stanford University in the department of Applied Physics. Dr. Vakoc has focused his efforts toward the development of optical technologies for use in the diagnosis, treatment, and study of disease. In 2009, Dr. Vakoc was appointed Assistant Professor at Harvard Medical School and the Harvard-MIT Health Sciences and Technology program. In his laboratory at the Wellman Center for Photomedicine, he is continuing his efforts to develop and translate optical technologies to applications in health and biology.
