

At the epicenter of one of the world's most vibrant intellectual communities, CIMIT fosters and nurtures interdisciplinary collaboration among world-class experts in medicine, science, and engineering, in concert with industry and the government, to rapidly improve patient care.

Equally important, CIMIT provides innovators with resources they need to explore, develop, and implement novel technological solutions for today's most urgent, complex healthcare problems.

CIMIT Young Clinician Research Award

CIMIT[®]

Center for Integration of Medicine
& Innovative Technology

Nomination Process

Eligibility

Clinical researchers early in their careers such as Fellows, Instructors, and Assistant Professors to create transformative innovations in healthcare delivery workflows enabled by novel, interoperable medical technologies.

Focus:

Innovations that reduce care fragmentation within and across care environments by

- improving patient safety
- facilitating real-time medical decision making

Amount:

\$50,000 (total)

Number of awards:

one per member hospital

Process

Through the CIMIT Site Miners, CIMIT consortium-member hospitals will nominate two top candidates from each institution. Submissions will include the following:

1. Personal statement on nominee's career and why they seek this award (1-2 pages)
2. Letter of recommendation from the Chief of Service
3. White Paper on research intent (2-3 pages)
4. Current CV

Criteria

Research aligns with CIMIT ICE initiative
Research work is collaborative in nature
Research promises great impact on patient care

Nominee is a "rising star" who holds promise as a clinical leader in their field
