

A non-profit consortium of Boston teaching hospitals, laboratories and engineering schools, CIMIT fosters and nurtures interdisciplinary collaboration among world-class experts in medicine, science and engineering, in concert with industry and government, to rapidly improve patient care.

CIMIT provides innovators with resources to explore, develop and implement novel technological solutions for today's most urgent healthcare problems.

CIMIT's mission is based on our firm belief that better health care for people world-wide is within our reach, and that technology can and should be part of the solution.

## **BECOME A MEMBER OF CIMIT**

### **Individual Memberships in**

- ▶ **CIMIT Friends**
- ▶ **Research Accelerator Program**

# CIMIT

Join

CIMIT RESEARCH COLLABORATIONS CREATE INNOVATIVE TECHNOLOGY THAT TRANSFORMS PATIENT CARE.

CIMIT members enjoy a convenient way to expand their personal networks through our public and invitation-only events. Of course, they also enjoy the fulfillment of supporting world-class researchers in the CIMIT consortium of eleven hospitals, laboratories and universities.

### Become a CIMIT Member

CIMIT Friends and the CIMIT Research Accelerator Program (RAP) are the membership options for individuals who want to be involved in CIMIT's mission to impact patient care.

Among other valuable benefits, members of both CIMIT Friends and RAP receive the CIMIT newsletter, Catalyst, containing news and announcements from the executive director.

One complimentary admission to the CIMIT annual conference is included in membership, as well as networking events with clinicians, entrepreneurs, investors, engineers and industry and government representatives.

## Two CIMIT Membership Options:

### CIMIT Friends

Annual membership contributions made by CIMIT Friends are an important piece of the fabric of our support. These and other funds are continually needed for research conducted by both young and seasoned investigators working on medical technology development in any of twelve CIMIT clinical programs.

CIMIT Friends' memberships and other philanthropic gifts also help support the CIMIT Medical Engineering Fellowship and Young Clinician Award programs.

#### CIMIT Friends Membership Levels

Professional	\$750+
Non-profit (or not working)	\$375+
Student	\$100+

#### Benefits for CIMIT Friends:

- ▶ Admission to CIMIT Innovation Congress
- ▶ CIMIT Forum topic reminders emailed weekly
- ▶ 25% discount to CIMIT-sponsored events
- ▶ Catalyst newsletter
- ▶ Named in annual List of Donors

"CIMIT'S JOB IS TO BRING BETTER MEDICAL CARE TO PATIENTS, WHETHER YOU'RE A SOLDIER OR A CIVILIAN. AND THAT'S THE MOST IMPORTANT JOB IN THE WORLD."

NICHOLAS T. ZERVAS, MD, ON WHY HE IS A DONOR

### Research Accelerator Program

Members of the Research Accelerator Program (RAP) are a select group of professionals who engage with CIMIT for two primary reasons: first, to learn about accelerating the adoption of new modalities of diagnosis and treatment into patient care; and, secondly, to access the convenience of executive-level personal health care services including an Executive Physical Examination and membership in a 24-hour medical emergency hotline for traveling executives and their families, The Executive Registry.

Individuals who want the enrichment of special scientific or business symposia, round table discussions and other invitation-only events plus personal health care options will find both in RAP.

#### RAP Membership Levels

Individual I	\$5,000
Individual II	\$6,000
<i>Executive Physical Examination</i>	
Couple	\$10,000
<i>Executive Physical Examinations for Two</i>	
Family	\$15,000
<i>Executive Physical Examinations for Three</i>	

#### Benefits for all RAP Members:

- ▶ The Executive Registry
- ▶ Content-focused networking events with research directors and investigators
- ▶ Admission to CIMIT Innovation Congress
- ▶ All benefits of CIMIT Friends
